

## **EMPORIO ARMANI GIVES ON-TREND UPDATES TO CLASSIC STYLE FOR THE FALL JEWELRY COLLECTION**

The Emporio Armani Fall jewelry collection adds fashion-forward detailing to traditional pieces for the season's most festive looks. The ladies' line features elegant rose gold-tone pieces featuring mother-of-pearl highlights and a modern collection utilizing geometric shapes and tassel accents. The men's collection goes back to the basics with iconic leather bracelets that are as simple as they are stylish.

An extension of the tassel collection that launched in summer, a pair of mismatched earrings and a tassel necklace feature geometric, three-dimensional shapes for pieces that are both unique and chic. Highlighted by mother-of-pearl rondells, rose gold-tone plating, pavé accents and the Emporio Armani logo, a stunning layered ring, earrings and a chain necklace offer an elevated look.

For him, iconic leather bracelets in a variety of colors, including grey and blue, black and brown and steel and black. These masculine bracelets are completed by a logo-accented, steel IP plated plaque.

The Emporio Armani Fall jewelry collection will be available in stores and online at [Armani.com](http://Armani.com) from July 2017.
